

MOUNTAIN BIKES

Golf Club 07/011/09

Saturday was the final event of the year for the Mountain Bike Club, and with the twilight event falling on a hot afternoon it was decided to reduce the duration of the event for safety concerns. In retrospect, some may have wished it was reduced to a one lap dash, because it was roasting hot!

Junior Girls saw Kate and Olivia both put in a very good effort, and they should be very proud they did so well under such tough conditions.

Junior Boys had our regular trio battle it out, but Corey once again dominated the field. Watch this young man next season, you senior riders!

Women had the two "old faithfuls" head out for a hot cranky lap, and managed to make it back to base, with Jo making a spectacular finish in front of the cheer squad.

Sport Men had some very hot competition, and a few surprises along the way. A blistering pace was initiated off the start line, and those who had been putting in the extra training proved that secret training really does pay off. The mechanical monster was out on the track, and took out Barney and Unlucky Phil.

Senior Men was also very close, and I'm sure some were concerned they may have cooked themselves trying to take the glory! There were a few surprises in the field, but overall an amazing effort by all under very uncomfortable conditions.

Big thanks to our timekeepers, and volunteers who all chipped in to get the job done quickly and efficiently.

After the event the 2009 annual presentations were held in the Golf Club function centre. Throughout the year, Club Members are allocated points based on their placings in the monthly events, and this tally goes towards Club Points at the end of the year. This year there were some very close results, and next year is going to be very interesting!
